

Essentials of Photo Editing

With Photographer Larry Johnson

New One-Day Class every 3rd Saturday of each Month.

10 am – 5 pm. \$99 Class Fee.

Eight hours of Texas CPE credit. TEA Provider Number 903-922

Overview: This is a highly individualized hands-on one-day photo editing workshop. Topics and strategies you will learn are common across all the major editing platforms, and a few minutes of editing can take an average picture to new levels!

This class is appropriate for photographers that have a basic understanding of how to adjust their cameras and take photos. We'll look at how to think about editing, what to look for, and how use simple editing strategies to bring out the very best in your images.

While this class will focus on the Adobe Lightroom platform, the techniques will apply to any editing situation on any platform. Lightroom CC works seamlessly across all your devices, allowing access to your collections on any device, as well as the web. Lightroom Classic, which has all the features of CC, adds the ability to powerfully manage your archive of images. Both programs are included in the entry-level Adobe Photo package.

Attendees will learn techniques they can apply to their own photos, whether taken with a full-featured digital camera or with a smart phone. Students will receive individual assistance and guidance from the instructor as they edit.

Key topics

- Planning your editing workflow
- Global image edit checklist
- Copying edits from one image to another one or to many others
- Selective edit checklist,
- Powerful AI masks and sophisticated but easy-to-use tools
- External editing programs
- Exporting your images
- Constructive Critique

Required Equipment: You will need to bring a device to the workshop that at the minimum can run Lightroom CC. A laptop is best, as it will allow you to run both Lightroom Classic or CC on the same device. You can still use Lightroom CC on your tablet or even your smartphone. Each attendee should plan to bring a significant number of images to work with.

Note: If you do not already have the Lightroom Photo Plan, you can sign up for a free 7-day trial that includes Lightroom CC, Lightroom Classic, and Photoshop.
