

*"Larry's four-week course is a great overview of basic photography tenets. Then he throws in some real-life camera practice sessions like walk-about, still-life shoots, and light painting. Add to that learning how to critique (and listen to critique), as well as some basics of editing in-Phone or with Lightroom and it makes for an action-packed month of photo education. You'll be wanting to take up more study on your own immediately to keep building on your new enthusiasm for photography."*

*"Truly thrilled to and privileged to have such a high-level photographer here to lead this class. Larry is so knowledgeable, experienced, and well-versed in the every aspect of photography, but also so good at explaining! He shares lots of useful notes in handouts and in emails, but it was just right — never overwhelming."*

*"This course and Larry Johnson to teach it should be included with every camera purchase! The class improved my confidence and my skills, and made me want to learn more!"*

*"Look at these images!! I took over 600 shots during volleyball last night! I adjusted the ISO, shutter speed and aperture to get the shots I wanted, and was soooo happy with the pictures!!! Thanks for encouraging me to understand shooting in manual mode!"*

*"The course material was so well-organized and useful! Larry took the time for Q&A and clarification. His photos he shared with us to teach and explain the topics were amazing."*

*"This class was very valuable to me as someone very new to photography — I literally had no real experience. The course was taught in a way that a beginner can understand and begin to incorporate into making images, while also targeting the needs of the more advanced students in the group."*

*"Excellent instruction — Larry is VERY knowledgeable. He took the time to answer any and every question we had."*

*"I learned how to shoot with intention! It was awesome to take this class — Larry brings so much experience and talent!"*

*"Loved that each class had a clear structure and theme! The handouts and slides were exceptional!"*

*"I did not realize how much I missed and enjoy photography! The editing process that Larry showed us takes everything to another level!"*

*"Larry explains the material extremely well and does a great job of providing examples to reinforce the topics. He even used the critiques of our own work to reinforce the concepts he was teaching."*
